

VAR Technical Textiles

VAR technical textiles offer inherent heat & flame resistance, high mechanical strength, and excellent breathability.

They are made of an innovative Viscose FR, Para aramid, Polyamide, and antistatic fibres mix and are available in different constructions and weight.

VAR fabrics are designed for modern Battle Dress Uniforms that deliver advanced protection and comfort in hot climate conditions that demand highly breathable, quick-dry and lightweight solutions.

HEAT & FLAME PROTECTION

Limited flame spread as per EN ISO 15025 / Index A

PHYSICAL & MECHANICAL PROPERTIES

High Mechanical Strength
Uniquely High Breathability
Excellent Dimensional Stability
High Color Fastness

OPTIONAL FINISHES

Water & Oil Repellency
Permethrin Treatment

COLOR OPTIONS

Plain Colors with I.R.R. properties
Camouflage Print with I.R.R. properties
